How to use your printable card

1. Book and pay for the lesson first.
2. Fill in the card. On a computer, open this file in Adobe Acrobat Reader, Mac Preview or your web browser and type into the lines. Or print it first and write by hand.
3. Print page 1 only, at 100% ("Actual size"). Thick paper or card stock looks best. The card has white margins, so any home printer can print it.
4. Fold along the small marks at the left and right edges: first fold the bottom third back, then the top third back. The picture is now on the front.
5. The folded card (8.5 x 3.7 in) fits a standard #10 envelope. Add something small to unwrap with it, for example a pack of tees.
